About Me

A motivated and detail-oriented trainee accountant with 1.5 years of experience in auditing and accounting. Self-taught programmer with proficiency in React, Node.js, and backend technologies. Eager to leverage accounting knowledge and programming skills to contribute to your company as a frontend developer.

Projects

Image Uploader Web App

Developed a React and Node.js-based web application that allows users to upload images and generates shareable links. Demonstrated proficiency in frontend and backend technologies, as well as API integration.

Demo   Source code

Authentication App

Created a React and Firebase-powered authentication app that enables users to log in, view and edit their profiles. Showcased skills in user authentication and frontend development.

Demo   Source code

Unsplash-like App

Developed a web application using React on the frontend and Node.js with Express on the backend. Allows users to upload and manage image URLs, showcasing proficiency in full-stack development.

Demo   Source code

World Countries App

Built a React and Tailwind CSS app that showcases countries worldwide, allowing users to filter by region and search functionality. Highlighted frontend development and UI/UX skills.
